

Saskatchewan Cycling Association announces the donation of funds from Cycledelia Racing Club to the High Performance Program

February 2017

Saskatchewan Cycling Association would like to thank Saskatoon Cycledelia Racing Club for its generous donation to our High Performance Program to assist with athlete development in 2017. When discussing with Andrea Bunnin, Cycledelia's Club President, she said, "One thing that is important to us is that developing athletes have support to get to out of province races, like Nationals, that will help them develop and get excited about racing." Cycledelia raised the funds from profits and donations at Cycledelia sponsored races. When people get involved and volunteer this is what their efforts and participation can accomplish. Everyone who was involved in this effort deserves a big thank you. In addition, Blair Chapman, Janice Matus and Karen Cranston made huge efforts in 2016 to organize Bikes on Broadway and Blair was able to rally some donations from the business community.
