

Expression of Interest –Cycling For All Steering Committee

The Saskatchewan Cycling Association (SCA) is seeking members interested in participating in the development of the framework to guide a new Cycling For All (C4A) Committee. This is an exciting volunteer opportunity to be a part of future growth of Saskatchewan's broader cycling community.

Because this is planned as an expansion and renaming of the existing R&T Committee, there is a need to ensure that the existing work done by members carries through to the new structure.

The goal of this committee will be the development of a framework to address the evolution of the C4A committee.

Key to the goals of the committee will be the inclusion of voices from a cross section of communities and groups including 5 to 7 members with backgrounds or interest in, but not limited to

- Women's Cycling
- GASP Committee
- Gravel
- Mountain Bike – Non-XC
- Fondo
- Touring – (GASP) / Randonneuring / Bikepacking
- Fatbike
- Transport

Key Responsibilities include:

- Attend four to six C4A steering committee meetings as necessary to complete a set of recommendations and a draft framework to the SCA Board of Directors.
- Provide support and feedback on the construction of the committee's and subcommittee's framework and constitution.
- Assist with recruiting and identification of subcommittee members.

What about you?

- Interest in Cycling
- Ability to act honestly and in good faith with the best interests of the SCA in mind
- Experience being part of committees would be an asset.
